

I was a poor Operations Officer this past year, as I did not communicate much and I stayed at home most of the time, because of Covid. About the most I did was to contribute finances to the Youth Scholarship activities of Cousin Mark and to several un-budgeted expenses that arose beyond the budget established with Cousin Carol. Also, I retrieved the 100 loose-leaf binders that contain early Henderson genealogical information (digitized onto the Google Cloud) by my son, Nels Henderson out in CA. After returning these binders to my home in PA, I then took the paperwork back to the Odom Genealogical Library in Moultrie, GA.

I attended no games/festivals - different from the dozens I attended/convened at in the past six or seven years - in the past year. I will attend the A G M in MT and will close out the past eight years in which I have been active in CHS. Others will "step up" and lead this organization. With my health remaining passable, I will try to attend two or three festivals in the future.

There is little else to report.

My best regards to all -

Steve
